Pink Beauty

Fall List of Northern Ohio Grown “Do-Bloom” Rose Plants

No more pleasure have I derived from any money I ever spent, than from the dozen roses I bought and received from you last Fall.
Mrs. L. H., Buffalo, N. Y.

WE HAVE RECEIVED HUNDREDS OF SIMILAR COMMENTS

Gerard K. Klyn, Mentor, Ohio

Ohio's Largest Grower of Quality Field Grown Roses

What About Fall Planting

Regardless of some differences of opinion, we recommend FALL Planting for best RESULTS. Our own tests have proven this.

Plant from October 10th until November 10th, in such states where freezing weather is liable to set in about the middle of November.

Hill up the plants with clean soil about 10 inches high, leaving the upper part of the branches exposed. Remove the hill in the Spring and remove all dead wood. Planting instructions and care of roses sent with each shipment.

Our DO-BLOOM Roses are guaranteed to survive the Winter, if you hill them up as instructed. If you find any dead plants in the Spring, which is very unlikely, we will replace them free of charge.

ALL DO-BLOOM ROSE PLANTS ARE TWO YEAR OLD PLANTS
BUDED ON MULTIFLORA JAPONICA.

QUANTITY DISCOUNT

15% discount on 12 or more roses
20% discount on 25 or more roses
35% discount on 100 or more roses

This discount does not apply on patented roses or "Special Price" collections.

WE PREPAY POSTAGE

See our Illustrated Little Rose Book for illustrations and more complete descriptions of varieties.

Lily Pons

If you rather plant in the Spring, we will gladly accept your order now, and set the plants aside, so you will be assured of the varieties you may wish to plant. Some varieties are liable to be sold out, when Spring arrives.
